

The Art and Science of **GREAT**

Damon Finishes

An advanced Damon Course with Dr. Darsh Patel

DAMON SYSTEM
More than straight teeth

Saturday, May 13th - Amsterdam
Registration: www.ormco.nl/events

Saturday, May 13th - Amsterdam, The Netherlands

Course overview

As Dr. Patel's experience with Damon passive self ligating mechanics has evolved over the last 10 years, so has his mechanics. The Damon system is a highly sophisticated system that requires the skills of a Formula 1 driver to truly master. Once achieved it will deliver shorter treatment times and higher-quality finishes that result from the use of lower friction and "lighter" forces with the minimum of effort.

Dr. Patel will share his tried and tested techniques to Damon success. These will include treatment planning, variable torque selection, bracket positioning, use of early elastics, treatment efficiency steps, Class II corrections, multidisciplinary treatments and finishing techniques. This all being illustrated with clinical cases throughout. The ability to treat cases in an efficient, simple and logical manner is essential for Damon clinicians to differentiate their practices in today's marketplace.

Dr. Darsh Patel, BDS, MFDS, MORTH RCS, MPHIL (Orthodontics) / London, United Kingdom

Dr. Darsh Patel obtained his degree in Dentistry from the University of Manchester, and postgraduate in Orthodontics at Birmingham Dental Hospital. He runs a multi-award winning, 100% private practice in London, United Kingdom utilising the latest technology Invisible Lingual and self ligating buccal appliances. With nearly a decade of utilising the Damon system and self ligating appliances, Darsh is hugely enthused by the positive changes modern brace systems have brought to orthodontic treatment. He is on the expert panel for a number of orthodontic braces and lectures upon various orthodontic techniques globally.

Agenda

08:00 - 09:00	Welcome & Registration
